CORE FOAM MASONRY FOAM INSULATION VS. PERLITE/VERMICULITE

Core Foam Masonry Foam Insulation . . .

- ♦ Provides a higher R-Value than perlite or vermiculite
- ♦ Flows throughout the wall, filling nooks and air gaps
- ♦ Seals around obstructions with no gaps or voids
- ♦ Inhibits air infiltration
- ♦ Serves as a physical barrier to pests
- ♦ Does not settle
- ♦ Won't pour out of holes in wall
- ♦ Is a perfect fit to every wall configuration
